ABOUT IIM AHMEDABAD

IIMA is the leading management institute in India- ranked first in India by several organizations including the Indian Government. It is ranked 31st in the world for MBA and 19th for Masters in Management by the Financial Times in 2018. It offers various programmes in management. The institute is spread over a green 100- acre campus, including a central complex that is one of the landmark creations of Louis Kahn. The campus is home to about 1500 students, about 100 faculty members working in various management areas and sectors, staff, and executive education participants. It also plays host to a range of flora and fauna.

Research constitutes an integral part of the academic activity of the institute. The institute library houses nearly 200,000 books and several newspapers. It has a large number of e-resources, company and country databases, e-journals, books and research support tools/databases. The institute funds research projects and case-writing, which over the years has led to a rich repository of monographs, technical notes, cases, and journal articles.
